

ABOUT GREENLANE FURNISHINGS

Greenlane Furnishings started from humble beginnings in Leicester as a father and son run business in the 1980's. The family dreamed of bringing luxurious and modern designs to its customers, at affordable prices, with versatility in bringing various styles, ranging from modern glamour, cultural influences, or contemporary themes to the market place.

With the ability to understand the needs and desires of each customer, Greenlane Furnishings main focus is making sure their clients' distinct visions come to life beyond their expectations. Their staff continually seek out new products, design solutions, and demand only the highest quality from its manufacturers and their own work studio.

Greenlane Furnishings has established a valuable team of master craftsman within its own work studio in order to provide their clients with superior custom, lighting, fabrications and furnishings.

“Greenlane Furnishings has established a valuable team of master craftsman.”

In 2017, the company decided to go online so that it can provide its family orientated service to online shoppers so that they can purchase products at the touch of a button.

We want you to know that there is a family behind the scenes that are working endlessly to ensure the same quality of service is maintained with its online customers, as it is in store. Providing a service to enhance their vision of a beautiful home.

A Bespoke Made-to-Measure Service

Here at Greenlane Furnishings we are able to provide you with a bespoke made-to-measure service for both residential and commercial properties throughout the UK.

We can help you coordinate all your soft furnishings such as made-to-measure curtains, blinds, cushions and headboard upholstery with your lighting and decor. We can also enhance and develop your room by giving you a personalised design service, envisioning your space as a whole. We are ready to lead you through a design process in order to provide you with a time-specified project.

“We guarantee you will be provided with a highly professional and a personal service from start to finish.”

Our experienced team at Greenlane Furnishings have 30 years of industry knowledge so we're never short of ideas. The benefit of our in-house workstudio ensures we are well equipped and ready for any design challenge that comes through our doors.

Now that we are moving nationwide with our website we wish to offer are experience and knowledge to customers further afield, therefore we have set up video consultation through Skype. Please contact the store through the contact us page with details of your project, and we can set a meeting at mutual convenient time.

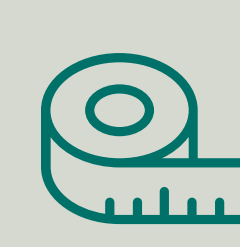

We guarantee you will be provided with a highly professional and a personal service from start to finish.
